

# CATCH UP - WITH WOTZ UP

31<sup>st</sup> MARCH 2020 #78 VOLUME 2020

Covid-19 has disrupted pretty much everyone's lives in so many ways.

Our move to Uganda has been put on hold until MAF determines the best way forward. At time of writing, all international staff travel has been suspended, Uganda and RSA have closed their borders and we are in lockdown in RSA.

Once we hand our home over to the tenants early in May, (if Covid allows) we plan on moving into a friend's family holiday home for a few weeks until the way ahead becomes clear.

There are no definite dates yet, as there are so many factors involved.

This is really a practical opportunity to live out Paul's words in Philippians 4:11 -13

**Go On**, go read it for yourself, it's a very encouraging passage and book. In fact don't stop at Philippians just keep reading.

Lockdown is proving to be a GREAT time to dig into Gods Word, I am loving this space to read, read and read some more of His word

The last 8 weeks of visiting churches, home-cells, individual supporters, friends and family have flown by and we arrived home again Tuesday last week. We spent the rest of last week resting up and prepping for lockdown.

Now at home we have started to pack up our home, there are some maintenance projects that need doing to prepare the house for our tenants, a car to sell, Mark has two flight tests, and between us we have four more doctors' visits –all related to going to Uganda.

We are both quite tired, and there is a busy period of time ahead of us yet. [#prayeritem](#)

**THANK YOU**, to all those who so graciously hosted us, fed us, entertained us, and allowed us to be a part of their lives .

**THANK YOU** to all the home cells and churches we fellowshiped with; you have greatly enriched our lives as a result.

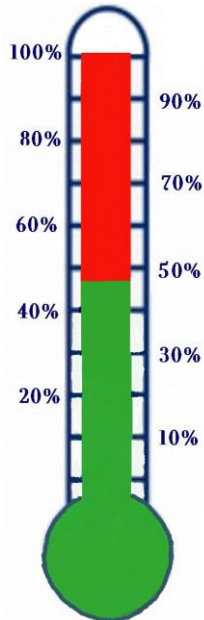

**THANK YOU** to all those who have supported us financially and added to our financial support.

**THANK YOU** to those Prayer Warriors who have promised to add their prayers to those already praying for us as we serve the Lord.

**31<sup>st</sup> MARCH 2020 #78 VOLUME 2020**

**LUMP SUM**

This is the amount that we need to move ourselves and our home to Uganda, up to the UK for an induction course, purchase a vehicle and set up home in Uganda

We did see an encouraging increase during our time visiting, and we anticipate another R20 –R30K from the sale of one of our vehicles later this month, which will push us just over the half way mark towards the goal.

For now it is standing still at this point.

**Application process**

There are still a few MAF required hoops left to jump, as well as some personal ones before we can hopefully depart for Uganda in June.

The major factor being that due to COVID-19, everything has been paused until further notice.

The doctors' visits have to wait, ditto the flight tests, selling a car, and putting things into storage until after lockdown.

We will continue our packing in the meantime.
